LOUISE MAHLER

PRESENCE, INFLUENCE AND VOCAL INTELLIGENCE

## INTRODUCTION

---

Our speaker, Dr Louise Mahler, is one of the most original thinkers in business communication today.

You may wonder how an expertise in presence and influence began with an economics degree majoring in statistics! It could be an interim decade singing opera in Europe with some of the greatest divas of our time or a soloist's contract at the Vienna State Opera, but it was a Masters in Organizational Psychology and a 'PhD in Business' that brought it all together.

Louise is a guest presenter for leaders and leadership-teams worldwide and coaches federal politicians, heads of international business and rising corporate talent when the need to give voice arises.

Louise makes regular TV appearances, has a series of videos with the Australian Financial Review and is a constant feature for comment on radio. Her book 'Resonate' with Penguin Random House is for 'people who need to be heard', so we are in the right place today.

Louise has sung in English, German, French, Italian, Spanish, Russian, Norwegian and Czech - and she'll hopefully be presenting today in English.

Her work has had a transformative effect on many people's lives and she's here now to impact ours....

She is the Virtuoso of the Voice  
The High Priestess of hot air and  
The Femme Fatale of unflinching attraction  
Let's welcome Dr Louise Mahler...
