

DR
LOUISE MAHLER

PRESENCE, INFLUENCE AND VOCAL INTELLIGENCE

INTRODUCTION

Our speaker, Dr Louise Mahler, is the 2021 Keynote Speaker of the Year recognizing her success and contribution as the most original thinker in business communication today.

You may wonder how an expertise in presence and influence began with an economics degree majoring in statistics! It could be an interim decade singing opera in Europe, with some of the greatest divas of our time or a soloist's contract at the Vienna State Opera, but it was a Masters in Organizational Psychology and a 'PhD in Business' that brought it all together.

Louise is a guest presenter for leaders and leadership-teams worldwide and coaches' federal politicians, heads of international business and rising corporate talent when the need to give voice arises.

A winner of an International Stevie Award for Lifetime Achievement helping Women in Business, Louise makes regular TV appearances, has a series of videos with the Australian Financial Review and is a constant feature for comment on radio. Her book 'Resonate' with Penguin Random House is for 'people who need to be heard', so we are in the right place today.

Louise has sung in English, German, French, Italian, Spanish, Russian, Norwegian and Czech - and she will hopefully be presenting today in English.

Her work has had a transformative effect on many people's lives, and she is here now to impact ours....

She is the Virtuoso of the Voice
The High Priestess of hot air and
The Femme Fatale of unfailing attraction
Let's welcome Dr Louise Mahler...
