

PRESENCE, INFLUENCE AND VOCAL INTELLIGENCE

Dr Louise Mahler Bio

Louise is a powerhouse of knowledge and performance excellence. Rarely does one find a powerhouse of academic insight, observational excellence and dynamic delivery to shed new light on a topic that is critical to us all – ourselves! Louise’s inimitable style and deep insight in her field are shared in keynotes and coaching internationally, where high-stake leadership beckons. A foremost expert in body language, voice and human behaviour, Louise has a PhD in Business, and degrees and masters in Organisational Psychology as well as Music.

Her skills as a Master Practitioner in Neuro-Linguistic Programming pull together her academic study and years of professional performance on the European opera stage to put her in a league of her own. In the process of completing her award-winning PhD, Louise observed a ‘missing ingredient’ in corporate leadership around the unsung wisdom of the mind-body-voice connection she calls Vocal Intelligence. These blended skills bring powerful observation that elicits discernible, positive change and together with an understanding of the psychology behind high-stake engagements and the structures for handling emotion, combine to build the Mahler Method. The Mahler Method teaches you the vital techniques to ‘be heard’ in hostile environments.

Louise is regular contributor to the media appearing on Australian television, appearing in print and radio and speaks and coaches worldwide. She is in demand through Adobe in the USA, India and the South Pacific, has travelled with Gartner to the USA and Europe and is a repeat guest for the elite Million Dollar Round Table Top Tables in the USA. Her book ‘Resonate’ is published by Penguin/Random House.
